Scud Cash with Order and The Postage V . Will Pay Hardy Perennials

Hardy Perennials

Including special types for Rock Gardens.
Color is the dominant note in today's gardening. Yesterday we had advanced in gardening conception so that our back yards were at least decently riothed with green moving grass, and bound in by appropriate groups of Howering sheads. That was splendid—so much better than the unrouth barrenness of service yard and rubblish piles, so common the day before. So now, we are not routent with green grass alone and the friuging shrubs, but demand rober: all colors, and lots of each.

There is no other way to satisfy this desire and obtain a quied offect, than by planting flowers. Many delightful colorful heds can be established of "Annuals" raised from seed for transplanted from supply commercially grown hip others). Here is where the Hardy Perennials come into their own. Beautiful in a thousand types and expressions. Once planted they continue great after year with un further gardening concern beyond enlitration, entting and thinning.

gardening concern heyond cultivation, culting and thinning.

Hardy Perennials

Artemisin (Silver King)—A monderful addition for your shrubbery or perennial bornier, farming a large compact mass of beautiful silver foliage. Fine for cutting. Price 10c, large 25r.

Hardy Skrubs

The Finest Stock We Havo Ever Grown
Our homes become homes in the true sense,
only when they are planted. Ornamental
shrubs are the foundation of all landscaps
aleatings. We offer a wide selection of varieties to beautify your home and garden.
Planting—As soon as your shipment arrives,
open up to verify stock, then heel-in-somewhere in shaded, moist soil. Take out a few
at a time to location. Dig holes large and
ileep enough to receive the roots without
cramping; sift fine dirt throughout the network of fibrous roots; fill up, tamp solid,
learing no fissures. Soak thoroughly and
rake the surface level.

Maintenance—Thereafter, make sure there is
sufficient soil moisture. Keep ground cultivated and free from weeds, preserving a
straight clean edge.

Pruning in the dormant stage is not injurious
to the plant and often easier to accomplish,
hut, as a result, the spring bloom is not as
alundant. The ideal time to prune shrubs
that blossom along their stems is just after
the blooming period.

Althen Bush—Large, handsome flowers. Double
red, white, purple and rose colors. Bloom
late in summer. Price 75c to \$1.00 cach.

Barberry—New red leaf varlety, very decorative. 75c to \$2.50 cach.

Barkhorn—Tall, (wigsy hush, dark green
leaves and white flowers. Price 50c.

Buttolleid ("Butterfly Bush," "Summer Lidic")
—Of quick bushy growth; when the lovely

leaves and white flowers. Price 50c.
Button Bush—Globe flower with glossy leaves, 60c.
Builleda ("Butterfly Bush," "Summer Lilae")
—Of quick bushy growth; when the lovely hloom-spikes appear in July, the shrub, which had probably died down nearly to the ground during winter, is now a perfect, well-halanced specimen of about 5 feet; radiating a delightful perfume and glowing with the tiuts of the Spring Lilaes. It is best to cut them hack angually. Plant this shrub for all summer bloom. Price, 50c and \$1.00 each.
Calycanthus (Suret Scented Shruh)—An old favorite. Plowers are rirh dark crimson. Delicions perfume. 50c and 75c each.
Caragana—Yellow, sweet pear-shaped flowers. A tall grower. Price 50c.
Cotoncaster—A class of refined fruiting shrubs miving dense, dainly little rounded leaves darkly lustrous and with brilliant autumn color and a grand display of vivid fruits. Adapted to rockery and wall adornment as well as to any other landscape usage. \$1.00 to \$2.50 each. Balled.
Curans Stolonificm—Red bark. White flower. Is rery decorative. Price 50c each.
